Schneider Electric—(Texas, Oklahoma and Louisiana—Utility Market Only)
(We Rep SERVICES in AR and SCADA RTU's in AR & NM)

ION Meters, are the most widely used meters used for transmission, distribution and inter-tie points in the US. This meter allows a high level of user customization to be able to alarm and log on any parameters being measured, Power Quality with high speed waveform recording and multiple user access over serial or Ethernet.

Protective Relays: Schneider is the largest manufacturer in the world of protective relays for industrial and utility accounts.

Remote Terminal Units - Telvent RTU's: With years of experience with retro-fit applications and new, Telvent can save you money on Hardware cost, Field wiring, Engineering, No changes to the master station and provide STATE of the ART equipment with added functionality. From RTUs with Config@Web easy & intuitive configuration software. Complete SCADA Systems Solutions.

Services and ASCO Automatic Transfer Switches
<https://www.se.com/us/en/>

Niagara Power Transformers - products comply with IEEE and government standards practiced throughout the world. Our customers include OEM and engineering, procuring and construction (EPC) firms, as well as end-users in private industry, traction, industrial, mining, government, utilities, universities, renewables and many more. Voltage capacities up to 50 MVA base rating, 100 MVA fan rating, 138 kV and 650 kV BIL. <https://www.niagarapowertransformer.com>

Newell-PSN - Complete line of **solid core, station and line post porcelain Insulators**, for distribution, substation and transmission with over 50 years of manufacturing experience and performance testing. The solid core design ensures 100% puncture-proof reliability throughout the insulator life. <http://www.newellporcelain.com>

ADVAN Power Systems has a complete line of silicone cutout and arrester protection products, silicone suspension and post insulators, fiberglass crossarm, standoff brackets and guy strain insulators products, Pole Line and Connector hardware along with utility grade anchor products. <https://advanpowersystems.com/>

GasQuip's mission is to help electrical utilities eliminate SF6 gas emissions. SF6 Gas is used as an electrical insulator in medium and high voltage switchgear, and is a potent greenhouse gas. Although new technologies are being developed, a large chunk of switchgear still relies on SF6 gas to operate. That is why our best defense against SF6 emissions is proper training and equipment.
<https://gasquip.com/>

FirstPower Group LLC is an industrial manufacturing and equipment services company specializing in maintaining older High Voltage Circuit Breakers and Compressors used by the electric power industry. With industry experience since 1979, FirstPower Group LLC has been addressing efficiency and productivity concerns for the electric power industry, resulting in significant improvements to existing equipment and affordable, effective solutions to equipment problems that result in delays and costly repairs if not addressed. <https://firstpowergroupllc.com/>

CO7 Technologies - Distribution Fused Cut-outs, Medium Voltage Substation Doghouse Vacuum and SF6 Circuit Breakers <http://www.co7tech.com/>

MCM Engineering II - Enoch, UT -Low Voltage and Medium Voltage Metal Clad and Metal Enclosed Switchgear, Power Distribution Centers, Utility Metering Sections and Trailer mounted Switchgear
<http://www.mcmeng2.com>

Trayer Engineering Corp - 5 thru 35KV Padmounted ATS, SCADA & Automation Switchgear AND Submersible Switchgear

Electromark - **Leading Source for Utility Marking Products**

for safety, operations, and maintenance application. Signs, lettering, numbers and seals. <http://www.electromark.com/>

iS5 Communications a global provider of integrated services and solutions, and manufacturer of intelligent Industrial Ethernet products. Designed to meet the stringent demand requirements of utility sub-stations, roadside transportation, rail, and industrial applications. iS5Com's services and products are key enablers of advanced technology implementation such as the Smart Grid, Intelligent Transportation Systems, Intelligent Oil Field, and Cybersecurity (NERC and CIP compliance). <http://www.is5com.com/>

Primax - **Battery Chargers & Battery systems** for communications and power applications. Cabinet designed for long life and access to internal parts. One PC board for all chargers to minimize spare part to stock. <http://www.primaxpower.com>

Advanced Power Technologies

Advanced Power Technologies - Transformer Temperature Monitoring System <http://www.advpowertech.com/>

Meiden America Switchgear - 72.5KV and 145KV Dry Insulated Vacuum Circuit Breakers <http://www.meidensha.com/mas>

Bierer Meters - Family owned and operated for over 30 years. Providing Lineman Proven Safe, Dependable and Tough made in USA Voltage Detectors, Phasing Meters, Test Equipment, Temporary Personal Grounds(TPG), Jumper Assemblies, and Cover Up. Bierer USA Support includes Nationwide Representatives, Repairs, Calibration, Technical Assistance, Video Conferencing Live Line Training, and our exclusive "Linemen's Safety & Tool Training". Serving all Electrical Utilities and Contractors throughout the USA! <https://www.bierermeters.com/>

HV Technologies - High Voltage and Cable Test Equipment and Service Solutions <http://www.hvtechnologies.com/>

HIPOTRONICS  Hipotronics - Medium and High Voltage Test Sets and Measurement Instrumentation <https://www.hubbell.com/hipotronics/en>

Rapid Rail International - Specializes in Fall Protection for Transmission and Distribution Structures <http://www.rrisafety.com/>

M.D. Henry Company, Inc. - MDH can provide a Complete Line of Engineered Galvanized, Painted or Self Weathering Tapered Steel Transmission Poles, Substation Structures, Steel Davit Arms, Wood-Equivalent Poles and Lattice Towers for Transmission, Substation and Distribution Applications. MDH can also provide Complete Substation Equipment Packaging. <http://www.mdhenryco.com/>
